## THE ART OF THE CANDLE

L'Esprit Cocon is reinventing the world of candles by offering creations that are up-market, modern and unique. This exclusive brand will be making headlines for some time to come.

*By Caroline Garros*

### ***Handcrafted candles***

L'Esprit Cocon sets great store by the quality of its products and that includes carefully sourcing its supplies. It uses the very best fragrances, selected in Grasse, the world perfumery capital, and premium quality, natural plant wax. This company is a master chandler, employing artisanal traditions and skills in the manufacture of each product to create something truly prestigious.

The production process is quite remarkable, resulting in the unparalleled quality and

careful finishes required to attract ever more demanding clients.

With wonderful names that translate as "Rising Sun", "Dawn of the Senses", "Faraway Inspiration" and "Lake Mist", L'Esprit Cocon comes up with subtle perfumes inspired by Nature and designs candles to enhance your interiors by adding that extra touch of refinement, luxury and warmth.

### ***Unlimited creativity***

L'Esprit Cocon recently launched a new range of highly

desirable candles that we couldn't wait to check out. The company listens to its customers and is developing bespoke candles for hotels, luxury boutiques, interior designers and concept stores that want to add a personal touch to their reception areas, entrance halls or showrooms. L'Esprit Cocon comes up with a unique olfactory signature and creates an individual perfume and a style that suits each universe to perfection. Nestled in their attractive holders, these candles also represent classic gifts for clients who appreciate their wonder-

ful, decorative potential. Take, for example, the Winter 2018 Collection of candles designed specifically for the magazine's clients.
